Dear

I am writing in response to your email dated 14th September 2018 requesting information under the Freedom of Information Act (2000) regarding Intra-vitreous vials / Implants.

I can neither confirm nor deny whether some of the information you have requested is held by the Trust in its entirety. This is because the information requested in your questions is not held centrally, but may be recorded in individual health records. In order to confirm whether this information is held we would therefore have to individually access all health records within the Trust and extract the information where it is present. We therefore estimate that complying with your request is exempt under section 12 of the FOI Act: *cost of compliance is excessive*. The section 12 exemption applies when it is estimated a request will take in excess of 18 hours to complete. We estimate that accessing and reviewing all health records and then extracting relevant information would take longer than the 18 hours allowed for.

Under section 16 of the FOI Act we are required to provide requestors with advice and assistance where possible. We would therefore like to advise you that if your request is shortened to just totals we are able to comply within the 18 hour time frame. In order to avoid delay to your response we have provided this below.

As of 1st November 2014 University Hospitals of North Midlands NHS Trust (UHNM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.

Q1 Within your Trust how many Intra-vitreous vials / Implants have been used in the latest 4 months, if possible between May and August 2018?

Please state the number of vials dispensed from your pharmacy in this period, if the number for wet AMD is not known, then regardless of reason for use.

	Lucentis (Ranibizumab) Injections	Avastin (Bevacizumab) Injections	Eylea (Aflibercept) Injections	Illuvien (Fluocinolone) Implants	Ozudex (Dexamethasone) Implants
Total Vials / Implants					
Vials / Implants for					

Wet Age Related Macular Degeneration (wAMD)					
Vials / Implants for Diabetic Macular Oedema (DMO), Retinal Vein Occlusion (RVO) or other such as mVNV					

A1 Please refer to the table below: UHNM issues to the eye clinic: May to August 2018 (only total number of vials/implants supplied as we're unable to decipher use by indication)
