Dear

I am writing in response to your email dated 18th May 2018 requesting information under the Freedom of Information Act (2000) regarding intra-vitreous vials/implants.

I can neither confirm nor deny whether the information you have requested is held by the Trust in its entirety. This is because the information requested in your questions is not held centrally, but may be recorded in individual health records. In order to confirm whether this information is held we would therefore have to individually access all health records within the Trust and extract the information where it is present. We therefore estimate that complying with your request is exempt under section 12 of the FOI Act: *cost of compliance is excessive*. The section 12 exemption applies when it is estimated a request will take in excess of 18 hours to complete. We estimate that accessing and reviewing all health records and then extracting relevant information would take longer than the 18 hours allowed for.

Under section 16 of the FOI Act we are required to provide requestors with advice and assistance where possible. We would therefore like to advise you that if your request is shortened to just the total number of each product supplied to ophthalmology patients we are able to comply within the 18 hour time frame. In order to avoid delay to your response we have provided this below.

As of 1st November 2014 University Hospitals of North Midlands NHS Trust (UHNM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.

Q1 Within your hospital Trust how many intra-vitreous vials / implants have been used in the latest 4 months, if possible between January to April 2018
Please state the number of vials dispensed from your pharmacy in this period, if the number for wet AMD is not known, then regardless of reason for use.

	<i>Lucentis (ranibizumab) Injections</i>	<i>Avastin (bevacizumab) Injections</i>	<i>Eylea (aflibercept) Injections</i>	<i>Iluvien (Fluocinolone) Impants</i>	<i>Ozudex (Dexamethasone) Implants</i>
Total Vials / Implants					
Vials / Impants for Wet Age					

Related Macular Degeneration (wAMD)					
Vials / Impants for Diabetic Macular Oedema [DMO], Retinal Vein Occlusion [RVO] or other such as mVNV					

A1 The information below relates to Royal Stoke University Hospital only. University Hospitals of North Midlands NHS Trust (UHNM) do not operate an Ophthalmology service at County Hospital (Stafford).

Please note that pharmacy can identify the total number of each product supplied to ophthalmology patients but cannot confirm that the use is for wet age related macular degeneration as the Trust's pharmacy computer system does not hold diagnostic information: this may be recorded in individual patient notes – section 12 exemption as detailed above.

	<i>Lucentis (ranibizumab) Injections</i>	<i>Avastin (bevacizumab) Injections</i>	<i>Eylea (aflibercept) Injections</i>	<i>Illuvien (Fluocinolone) Impants</i>	<i>Ozudex (Dexamethasone) Implants</i>
<i>Total Vials / Implants</i>	1348	37	528	4	16
Vials / Impants for Wet Age Related Macular Degeneration (wAMD)					
Vials / Impants for Diabetic Macular Oedema [DMO], Retinal Vein Occlusion [RVO] or other such as mVNV					

*Please note that any individuals identified do not give consent for their personal data to be processed for the purposes of direct marketing.

UHNM NHS Trust is a public sector body and governed by EU law. FOI requestors should note that any new Trust requirements over the EU threshold will be subject to these regulations and will be advertised for open competition accordingly.
