Subject: RE: C/S guideline.- from LH to NA 9 6 22

Hi [REDACTED]

This enquiry needed to go to the author of the c/s guideline not the guideline lead?

Apologies we thought you were the author of this guideline. Please could you let me know who will be the co-author with Lou for the c/s guideline. It appears to have changed several times.

Kind Regards

[REDACTED]

Dear [REDACTED]

I think this needs to be directed at the guideline lead please. That is not me [REDACTED] do you know who the guideline lead is please?

BW,

Subject: C/S guideline.

Hi [REDACTED]

I hope you are well, long time no see !

I'm so sorry to bother you.

As part of my phased return I'm reviewing the C/S guideline, alongside a gap analysis, our guideline/ NICE guideline.

There are a couple of sections in our guideline that just need looking at by a Consultant to make sure this reflects what we are currently doing in practice, I checked with [REDACTED] and she suggested that I contact you to ask if you kindly look over it for me.

I'm sure there is probably very little in the way of changes as it mainly covers the procedure of performing a C/S.

Sections 10 and 13 in our current guideline are the ones that need looking at , I have attached the guideline for your convenience.

Thanks [REDACTED] hopefully see you soon.

Kind regards,

[REDACTED]
