Dear ,

I am writing to acknowledge receipt of your email dated 7th March 2024 requesting information under the Freedom of Information Act (2000) regarding cancer

As of 1st November 2014 University Hospitals of North Midlands NHS Trust (UHNM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.

Q1 1. How many fatalities have been due to cancer wrong diagnosis or failure/delay diagnosis in the last three years (Between 2021-up to and including any data held for 2024)?

For example: The number of incidents where the Primary Cause is 'Wrong Diagnosis' or 'Failure/Delay Diagnosis' and where both injury codes 'Cancer' and 'Fatality' are recorded?

Can this be broken down by year and presented in PDF format?

A1 We are unable to provide the information you require in the requested format as to release this data could lead to the identification of the person(s) involved due to the low numbers involved, and would breach the Trust's obligations under Data Protection Act 2018. Accordingly, this aspect of your request is exempt from disclosure under the terms of Section 40(2) of the FOI Act. *Personal information*. However as the Trust is committed to openness and transparency we can band the numbers as being <5
This exemption is an absolute exemption and therefore no consideration of the public interest test is needed.

Search on Datix on the following criteria:

- Result: Death
- Category: Clinical assessment (including diagnosis, images and lab tests)
- Subcategories: Diagnosis – wrong and Diagnosis failed or delayed
- Description: Keywords of cancer or tumour
