

Step Into UHNM and Step Into Medicine

A series of webinars and live Q&A to inspire local young people to choose a career in healthcare

The Learning and Education team have developed a unique programme for all our budding healthcare professionals who want to join the UHNM family.

What UHNM roles will you be covering?

A whole range of range of roles from Doctors, Surgeons to Healthcare Scientist, Pharmacists and Occupational Therapists... and many more.

Does this replace work experience?

Due to the high demand for work experience it's difficult to accommodate all requests, however with this virtual offer we can start to reach out to even more students to provide a good insight and introduction and to promote UHNM as an employer of choice.

Please follow this link to watch our first [Step into Medicine](#) session
