Dear

I am writing to acknowledge receipt of your email dated 1st February 2024 requesting information under the Freedom of Information Act (2000) regarding cardiac pain protocol

As of 1st November 2014 University Hospitals of North Midlands NHS Trust (UHM) manages two hospital sites – Royal Stoke University Hospital, and County Hospital (Stafford). Therefore the response below is for the two sites combined from that date where appropriate.

Q1 Please may you provide us with what your protocol is for treating and investigating patients who arrive in your emergency department with chest pain and cardiac pain.

A1 There isn't a chest pain protocol as such, as it can be caused by a multitude of different causes and to flow chart them all onto one chart would be not possible to show all causes. Attached is the flow chart for high sensitivity Troponin I results for suspected cardiac chest pain. For the other causes of chest pain there are the ED guidelines, which are in the process of being updated.
